

# CAPABILITY STATEMENT

## COMPANY OVERVIEW

ES Squared LLC is a consulting firm that provides Environmental & Safety solutions that was founded in 2008. We specialize in protecting the environment, employee safety and health as well as reducing employer costs through minimizing and eliminating employee injuries.

ES Squared LLC maintains a team of safety professionals, engineers, environmental scientist, geologist, program/project managers as well as other technical professionals available to design, implement, maintain, and manage Environmental and Safety solutions for both commercial and government entities.

Our extensive experience, acquired through successful engagements with hundreds of organizations, is your assurance of cost-efficient, effective solutions that will enhance both your employees' well-being and your operational health.

## OUR APPROACH

The Zero Accident Philosophy. Our approach to safety consulting and accident prevention is founded on the Zero Accident Philosophy (ZAP), the belief that workplace accidents are:

- Preventable
- Predictable
- Unacceptable

This guiding principle is in every ES Squared engagement. Our philosophy shapes the creation of solutions to predict and prevent accidents and establish an organizational culture in which accidents are viewed as unacceptable.
